Google Tip of the Day

Search With a Budget

Please don't forget mom. Find a gift for her that's in your budget by searching for pages containing numbers in a given range.

Just type two numbers, separated by two periods, with no spaces, into the search box along with your other search terms. You can use this to set ranges for everything from prices, dates or any other term involving a number. Try searching: [gifts for mom \\$30..\\$50](#).

The 5 Stages Of **Twitter** Acceptance

1. Denial

"I think Twitter sounds stupid. Why would anyone care what other people are doing right now?"

2. Presence

"Ok, I don't really get why people love it, but I guess I should at least create an account."

3. Dumping

"I'm on Twitter and use it for pasting links to my blog posts and pointing people to my press releases."

4. Conversing

"I don't always post useful stuff, but I do use Twitter to have authentic 1x1 conversations."

5. Microblogging

"I'm using Twitter to publish useful information that people read AND converse 1x1 authentically."

The musings of an educator and professed webinerd in a flattening world

The illiterate of the 21st century will not be those who cannot read and write, but those who cannot learn, unlearn, and relearn. - Alvin Toffler

Cliotech on Technology & Education

17 OCTOBER 2008

Video in PowerPoint 2007

I put together some updated instructions for three ways to embed video into PowerPoint 2007. Thanks to [my network](#) here are [instructions for incorporating YouTube videos into PowerPoint](#).

The screenshot shows a Scribd presentation titled "Media in PowerPoint 2007 - Three Ways". It includes a note about embedding media, a suggestion about folder organization, and a section on hyperlinking to media with a list of five steps. Below the text are three small numbered images (2-3, 4, 5) showing PowerPoint interface steps for inserting a video.

Media in PowerPoint 2007 - Three Ways

NOTE: "Embedding" media into PowerPoint does not mean that the media has become part of your PowerPoint presentation; all three media options are really just ways to visualize the hyperlinked media file. In order for your media to play in PowerPoint you must have both the PowerPoint presentation and media file on the computer or removable media drive from which you are running the presentation.

Suggestion: When deciding to embed media into PowerPoint, consider creating a folder into which you save your PowerPoint presentation as well as your media files.

Hyperlinking to Media

You can access an Atomic Learning tutorial that explains this process at http://movies.atomiclearning.com/912/ppt07_adv (Section C - Hyperlinks)

1. Save the media file to the folder containing your PowerPoint presentation or copy the web link for the location of your video online
2. In PowerPoint, type text and highlight a word or phrase (e.g., "click here")
3. Right-click and select **Hyperlink** from the menu
4. Locate your video and click **OK**
5. When viewing the slide show, you can click on "here" and it will launch the video in your media player or stream it from the Internet.

Wednesday Keynote - Steve Dembo (07/16/2008)

were cost prohibitive?
What if we could open our classroom?

9:09 [Comment From Lee Kolbert]
Refers to DE Streaming as those who are "using" and not "using" - makes me think of drugs... which is appropriate because in many ways DE Streaming is like a gateway drug to other technology integration.

9:09 **RJ Stangherlin:** What if...we had access to things we could not reach, use, do in the past but now could do while still maintaining high standards--that's where Steve is going in his presentation with tech-saavy STARS

9:10 **cliotech:** Blogs make it easy to publish, collaborate, share, etc. Users no longer need the "geek gene" that understands html code.

9:10 **RJ Stangherlin:** @Lee: love your analogy "a gateway drug to other technology integration"; yes, it really is and we get hooked so quickly, which is a good thing, I think

9:10 **Lee Kolbert:** Anyone can blog... even playing field. Not so sure about that. Yes, anyone can, but even playing field???

9:10 **cliotech:** UStream link from Bridget Belardi
<http://www.ustream.tv/channel/steve-dembo--den-keynote>

9:11 [Comment From Guest]
@Lee...I agree with your comment re: DE Streaming as a gateway...w/o it and the DEN I know I would not be where I am today.

Organizing the Eduwiki

Front Page

Google Custom Search - like the beta. ~~Should we add the sub-wiki content to the search or should we create individual searches for each subject-wiki?~~

Google Custom Search has been added to all sub wikis in order to connect information. The existing search box will be used for the main Wiki in the Eduwiki.us network of wikis.

~~How should we divide the work? It would be nice if one or two people would pick a side bar category and build the new area. Maybe they could put a link on the main page for others to give some input before we adjust the side bar?~~

Side Bar

Best Practices - separate pages are being created to separate information from best practices. Drop-down boxes will make the page less crowded.

Calendar

Collaborations - two public calendars are being tested.

Collaborations - will contain: 20th v. 21st Century, Book Club, Discussion Forum, Education Partners, Global Classrooms, Looking4Partners, Points to Ponder and Project Connect. We may consolidate several pages after the site revision is done.

Connecting Administrators - place for administrators to share and connect. Administrators - an Administrator sub wiki has been created and linked.

Higher Education - ~~should we create sub-wikis for higher ed?~~ This sub wiki has not yet been created.

Primary Education (K-6 Resources) - suggestion: could we cluster the sub-wikis in this area? This will be a page that links to all K-6 Sub wikis. A drop-down box will also be used.

Secondary Education (7-12 Resources) - suggestion: could we cluster the sub-wikis in this area? This will be a page that links to all 7-12 sub wikis. A

DEN IN SL

Home

New since last time:

Welcome to DEN in SL -- a gathering place for Discovery Educators (known as DENizens in SL). This group is set up to assist you as you explore Second Life. Have a question or a comment? For something you would like other DENizens to contribute to? Then ^Pages^ is the place for you to be. If you develop something that you would rather not have the ability to be edited, try putting it in YOUR input.,

As a DEN in SL Google Group member, you will want to do the following:

1. Please go to the Members section and update your image. You can choose to either upload a RL or SL image of yourself. I've chosen a RL image because I tend to change my SL image like,
2. We should make MUCH use of the Pages section. Here members can create a new page AND members can go in and edit that page (much like a wiki). This is a great section to post project contribute and comment.
3. The Files section allows you to upload documents, etc. Keep in mind that this is much like a 'filing cabinet'. You can upload, but you can't edit. This section should be used for final documents.
4. MOST IMPORTANT: **Make sure to click on 'Edit my membership' on the right side.** You will want to change how you receive notification of updates/changes to the Group. I always choose what you decide is your choice.

Thank you!

Parents as Partners Episode #13 October 6, 2008

Submitted by Lornacos on Tue, 2008-10-21 21:29. [Parents as Partners](#) [Aurelio Montemayor](#) [parent involvement](#)

58:42 minutes (26.87 MB)

Aurelio Montemayor from the Intercultural Development Research Association joined the show. Aurelio described his definition of a valued parent leadership, intertext for poor folks without computers and which social media to surf. The chat room was actively engaged in responding to Aurelio's thought provoking approach to parent involvement.

Teachers Teaching Teachers #125 - What if you ask the students what they think? 10.15.08

Submitted by Paul Allison on Tue, 2008-10-21 02:35. [Teachers Teaching Teachers](#) [Alice Barr](#) [Farisa](#) [Gail Desler](#) [Hannah Lindsea](#) [Paul Allison](#) [students](#) [youth voices](#)

59:02 minutes (13.5 MB)

Three amazing young women joined us on this episode of Teachers Teaching Teachers:

- Farisa, 10th Grader at East-West School of International Studies, Flushing, NY, NY
- Hannah, 11th Grader at Science Leadership Academy, Philadelphia, Pennsylvania
- Lindsea, 12th Grader at Punahou School, Honolulu, Hawaii

Paul Allison, Alice Barr, and Gail Desler stayed out of the way as much as possible. We asked the students to help us keep on track with the mission of [Youth Voices](#): to be "a space where teachers nurture student-to-student conversations, collaborations, and civic actions." We seek to sustain student-sponsored work on our new site.
